

## AMONG THE COLLEGES.

## HARVARD.

Cambridge, Mass., Sept. 23.—The freshman class which will enter Harvard this year promises to be the largest in the history of the institution. The examinations have just been completed, and in consequence the exact number cannot be known. It is estimated, however, that the number of students who have been accepted for the coming year is the largest in the history of the college. This fall three new large buildings, and of them the result of private enterprise, will be opened.

West Moreley Hall has been erected on Bow-st. by Charles P. Wetmore, of New York. It is a red brick building, trimmed with white marble, and is arranged that an addition can be constructed for it next year. This will be known as South Moreley. West Moreley will take rank as one of the swell Harvard dormitories, along with Claverly and Apley Court, which are also owned by Mr. Wetmore. The Cambridge Savings Bank has built the Dana Chambers, in Dunster-st., just opposite Dunster Hall. The ground floor is just for bank offices and stores. The rooms are also extensive. In Dana Chambers, on Mount Auburn-st., Randolph Hall has been built. It is the largest of the new dormitories, and the rooms are not quite so expensive as the others. The new college buildings are also getting on their feet. The new dormitory, known as Randolph Hall, is being built on the site of the old dormitory, and the new dormitory, known as Randolph Hall, is being built on the site of the old dormitory. The new dormitory, known as Randolph Hall, is being built on the site of the old dormitory. The new dormitory, known as Randolph Hall, is being built on the site of the old dormitory.

## BROWN.

Providence, Sept. 23.—Many friends of Brown University have of late been fearing disaster for the college for reasons which are well known to every one. The effect of last year's controversy was apparently not beneficial; the resignation of President Andrews could not be foreseen, and certainly no good results could be expected to come from the \$6,000 deficit of last year. On account of this financial difficulty the teaching force had been reduced in numbers and the academic courses had been dropped. The curriculum of the college had been reduced in numbers and the academic courses had been dropped. The curriculum of the college had been reduced in numbers and the academic courses had been dropped.

A permanent successor for Dr. Andrews will not be chosen at present, but the position of president will be temporarily filled by Professor Benjamin F. Clarke, whose term as acting president year before last was so distinctly successful. The resignation of President Andrews could not be foreseen, and certainly no good results could be expected to come from the \$6,000 deficit of last year. On account of this financial difficulty the teaching force had been reduced in numbers and the academic courses had been dropped.

## PRINCETON.

Princeton, N. J., Sept. 23.—Princeton University on Wednesday embarked on her 152d voyage on the sea of knowledge. The academic year has begun very auspiciously, for, besides the entering of the largest freshman class in her history, several additions have been made to the curricula, both undergraduate and graduate courses, and a number of men of note have been introduced into the faculty.

President Patton formally opened the college exercises in Marquand Chapel with faculty stalls and nave crowded to overflowing. The Board of Trustees was represented by Mr. Taylor Pyne, of Princeton, and Colonel John J. McCook, of New York City. The president's address was a most inspiring one. He referred to the blessings of the Nation's peace, and asked audience from the Almighty for the men who are shaping the country's policy, and that out of the differences in judgment the people may be led to the wisest conclusions. He spoke feelingly of the young Princetonians who had gone forth to battle and who had lost their lives or their health in service.

## ROCHESTER.

Rochester, N. Y., Sept. 23.—At a meeting of the Executive Committee of the Board of Trustees of the University of Rochester on Saturday afternoon the first and most important matter taken up was the application made by David N. Salisbury, a lawyer well known in the city, that his daughter, Miss Salisbury, be appointed to the department of oratory and rhetoric. The department of oratory and rhetoric has been strengthened by the addition of a young doctor of philosophy from Berlin, J. P. Hoskins, who has been appointed assistant professor of oratory and rhetoric. The department of oratory and rhetoric has been strengthened by the addition of a young doctor of philosophy from Berlin, J. P. Hoskins, who has been appointed assistant professor of oratory and rhetoric.

The Executive Committee took action as follows on the recent death of John P. Townsend, LL.D., of New York, a member of the Board of Trustees of the University of Rochester. The trustees and the faculty of the University of Rochester have learned with great sorrow of the death of John P. Townsend, LL.D., of New York, a member of the Board of Trustees of the University of Rochester. The trustees and the faculty of the University of Rochester have learned with great sorrow of the death of John P. Townsend, LL.D., of New York, a member of the Board of Trustees of the University of Rochester.

deliver the annual "Flower Sunday" sermon Sunday morning. Mrs. Pauline A. Durant has returned to her Wellesley home from New Chester, Harlow, Mass., where she has been visiting her mother, Mrs. E. Durant, formerly professor of Latin, visited Wellesley this week, on her way to Winter Park, Fla.

## SYRACUSE.

Syracuse, Sept. 23.—The college year opened Tuesday with the brightest prospects in the history of the institution. As the new University building, down in the city, is now completed, the college of law is able to begin work in its new quarters. The new Studebaker Hall of Science is so nearly finished that the contractors say that moving in can begin in about a week or ten days.

The teaching force in the college of liberal arts has also been increased this year. Professor Richard Jones, Ph.D., formerly of the Regents' Department of the State of New York, and Frank E. Farley, Ph.D., from Haverford College, have been appointed to the English department. Professor R. Jones, Ph.D., formerly of the Regents' Department of the State of New York, and Frank E. Farley, Ph.D., from Haverford College, have been appointed to the English department.

Thursday morning after chapel the Chancellor announced that a friend in the city, who did not wish to be named, had given \$1,000 for new apparatus in the department of biology. Chancellor Day also said that another friend, whose name he could not mention, had promised an other valuable gift.

All the football men are glad to see Coach Wade back in the city. At one time they feared they would lose him, but he is now on hand, and imports a fine lot of new material for the team. Since the coach of the old team are also back, football stock is high.

## WEST POINT.

West Point, Sept. 23.—The cadets here think a game with Annapolis will be one of the principal features of this year's football season. Cadets here think a game with Annapolis will be one of the principal features of this year's football season. Cadets here think a game with Annapolis will be one of the principal features of this year's football season.

The resignation of Professor William Milligan Sloane, to go to Columbia University, left vacant the position of professor of history and political science, and Dr. Van Dyke has been selected to fill the chair. Walter A. Wyckoff, the young sociologist whose personal sacrifice in his chosen career has attracted so much attention, has been made assistant professor of political economy. The department of political economy has been strengthened by the addition of a young doctor of philosophy from Berlin, J. P. Hoskins, who has been appointed assistant professor of oratory and rhetoric.

THE GORDON HOTELS, Limited. THE NEW YORK POSTOFFICE, which may be considered a barometer of the business of the country, points to renewed prosperity. The usual increase in business has come with a rush, and in the last two weeks surpassed all previous records for the same period in September. The volume of matter now being handled at the General Postoffice is enormous, and growing larger every day. Clerks and carriers are rushed almost to the limit. The number of pieces handled during the first three weeks in September was about thirty million, as compared with about twenty-five million pieces during the corresponding period last year. A very large proportion of the gain is in second, third and fourth class matter. Business firms and publishers are sending out circulars and advertisements in large quantities. Samples of all sorts go to swell the volume of matter. The indications are that the business of the New York Postoffice will be a record.
